#### [Just Happier](#)

A normal day of

Winter sun and

Summer rain

I had a black canvas

And black colours

So I painted the black canvas black, blacker

So my thoughts exploded

Some burnt down

We haven't yet discovered the new

The more I will meet

The more I will miss

My heart is not with me

Not all of it

It will never fully belong to me

Home has been spread apart

I miss time

If only I could gather it

Clocks become unfaithful

Why can't the blue sky be bluer?

Why can't the blue sky be bluer?

Why can't the blue sky be bluer?

I want to feel strangers are friends

I want to feel love

I want to be beautifully human

Not terribly human

A girl from the darkness learns about brightness

While a girl from brightness learns about darkness

Why can't the blue sky be bluer?

Why can't the blue sky be bluer?

Why can't the blue sky be bluer?

Why can't the blue sky be bluer?

Why can't the blue sky be bluer?

Why can't the blue sky be bluer?

I just want to be happy, happier

I just want you to be happy, happier

I believe we can be happy, happier

Than we ever were before

## Age of Fatality

The sad,  
the anxious  
take it off,  
it's time for a rest,  
leave it  
in the depths  
Swimming up to brighter blues  
for ambitious future adoring

I left behind the loving and loved  
to find out  
what is hidden  
behind tangled truths and confusions  
do we want to see,  
or would we not?  
shadows become alive to  
nurture fights  
It's crumbling, an emergency

Oh, fatality  
Oh, fatality  
Oh, fatality  
Oh, fatality

Hysterical hearts are hungry  
To be reborn, to rewild, vulnerable inside  
Glaciers are the soul of a generation  
Between the yesterday and tomorrow

Horizons all around, thoughts wonder away  
And don't find their way back

Fatality

Fatality

Fatality

Fatality

Summoning empathy

Come close

Touches of

Savage emotionality

## [Scream It](#)

I'll not say it in your face, in your waiting ears  
It would be shy. I hope you feel it for now  
But one day it will be stronger  
I'll scream it, scream it into the future and

You'll hear the echo, of an echo, of an echo, of an echo of I love you

Prisoners of dreams. Prisoners of reality  
We meet in a possible future  
We need to kiss to make our pasts meet each other  
And strangle each other and

You'll hear the echo, of an echo, of an echo, of an echo  
You'll hear the echo, of an echo, of an echo, of an echo

### SECRET VOICES

Underground we build a safe space  
There we shall unravel vulnerable hearts and bullied dreams so they can rave and  
give courage to each other  
Anxiety and rage have to tangle and then to give birth to something beautiful  
I dare you grow it loud grow it strong and powerful  
I dare you gaze into the flames, so powerful

## Heart Tattoo

I fall in love to never fall out of it again

I'm storing every smile you smiled

Or tear you cried

I have a collection of someone wonderful

My existence in your heart is fertile

Plants of paradise grow,

Higher and higher

This is all one we can have

Baby, I want your tattoo on my heart

Baby, I want your tattoo on my heart

I'm happy I have a heart full of immortal love

Your feelings fall over me like a waterfall

I bathe in them,

I want to shout into the world you are the best

How I love to say

I love you to you,

I want to you as much as I am capable of

Our skin merges, grows into each other

I want more, give me more

Baby, I want your tattoo on my heart

Baby, I want your tattoo on my heart

I'm happy I have a heart full of immortal love

Our love is chewing gum

It will never break, never break

Our love is chewing gum

It will never,

Never, never,

Never, never,

Never, never,

Never break

If one day the sun won't go up for you

I'll go behind the horizon and carry it for you

Baby, I want your tattoo on my heart

Baby, I want your tattoo on my heart

Baby, I want your tattoo on my heart

Baby, I want your tattoo on my heart

Baby, I want your tattoo on my heart

Baby, I want your tattoo on my heart

I'm happy I have a heart full of immortal love

So much to lose

## Sunscar

I always thought that sunsets are beautiful

But today I heard her whisper

That it's painful, painful

Each time she falls on the horizon

She hurts herself

Blood drenches the sky before darkness

Please help the sun she's bleeding to death

Please help the sun she's bleeding to death

The sun is dancing in slow motion

Waiting from someone to join her dance

But she is too hot, too hot

Already far too dizzy from doing the same turns

It's the order of things

At night she corrupts,

It's contagious.

Please help the sun she's bleeding to death

Please help the sun she's bleeding to death

Please help the sun she's bleeding to death

Please help the sun she's bleeding to death

## Arrogance

Not caring on what scenes

She spreads her rays on with what hot fingers

She encloses iced hearts

I don't want the power to hurt someone

But power is hard

Cause you, you need to do something with t

You are attractive, you seduce me

Until it gets too hot.

Dead Angel

For you I sang my first love song,

We started life together in your arms

A hiding space from monsters

I, emotionally naked,

Became me

You were monumental,

You saved my belief like children

We played the game of love

I hoped we have forever,

Beautifully in love

After the best kiss

I murdered the angel

I made it bleed

Baby I know we will cry

I wish I could collect each tear and water

Flowers they will bloom

Because of our sadness

The sadness of leaving paradise

Show me where you are hiding,

I want to be close and heal your wounds

I'm sorry, life without you is so surreal

I will miss you for the rest of my life

The way you loved me

After the best kiss  
I murdered the angel  
I made it bleed,  
And I stabbed myself in the heart  
By hurting the being I loved the most  
A wound bigger than myself

Maybe, maybe I'll realise  
Too late that you were  
The one to share my life with, maybe

Expired Crystal

Love can be many things

Ours was crystal

It can not expire,

I can't destroy it

The crystal spreading like weed

Made me ask big questions

Just not fair that perversion is not your end

Censored the our love,

But I know the hate to be honest,

And I won't

I tore out my heart and gave it to you

My body gre back together

I forgot about the missing heart,

Missing heart,

But now it's time

Give me back that heart

Give me back that heart

It's mine, mine!

Give me back that heart

Give me back that heart

It's mine, mine!

I'm a memory manipulator

Unsaid I love you's,

I scream them into the past where you look beautiful

Feeding me wild roses

If only my physical could go where my mind can go

I'm a criminal to truths

I play imagination games

Shaking emotions from underground

Hypnotising in the same rhythm

Chewing on rigid situations

I'll dissect your being,

I'll dissect your being

Give me back that heart

Give me back that heart

It's mine, mine!

Give me back that heart

Give me back that heart

It's mine, mine!

Give me back my heart

Give me back my heart

Give me back my heart

Give me back my heart

I'm fighting nothing,

I'm fighting nothing,

Nothing take shape

When the eyes of sense are tiger's eyes,

The all is threatening to disappear

Where did my feelings go?

## Magic Fish

I am vomiting out memories, memories

How can surreal love feel so real

Your truths expired,

Love is in the dustbin

You never felt the love I felt

Why can't you be different?

Magic fish is freed into the ocean

To meet depths

And get lost

It was cruel, terrifying

What to fear and what to love

Veins of bodies

Begin connecting with waters of Mother Earth

Cried for me, now feel for all

Oh where can one be found in an ocean so big

Serving my heart for a feast meal

With deadly hunger we

Ate but you have diarrhea

The sun is hunted by the butcher

To be the next meal for all of us

At the wedding of life and death

Magic fish is freed into the ocean  
To meet depths and get lost  
It was cruel, terrifying  
What to fear and what to love  
Veins of bodies  
Begin connecting with waters of Mother Earth  
Cried for me, now feel for all  
Oh where can one be found in an ocean so big

## Fantasy

The most beautiful me for you  
Hearts hungry for magic  
Romantic like world champions

Emptiness filled with feelings  
Play my heart like you play your piano  
I'll applaud with kisses

It's a half dream I'm living in  
Melting away like an ice cream  
One wanted to keep

Decorated everything with fantasy  
We've been tourists in paradise  
Love has been the aeroplane

Gods play us love songs  
Stars our disco balls  
Thunder, earthquakes, volcano eruptions

The world becomes transparenter  
If someone's dreams are too good to be true  
They'll need to die

The night is still my kingdom  
Dreams get born in the dark and die in day  
I'll watch dreams on TV

Gods play us love songs  
Stars our disco balls  
Thunder, earthquakes, volcano eruptions  
Gods play us love songs

Stars our disco balls

Thunder, earthquakes, volcano eruptions

Thunder, earthquakes, volcano eruptions

What a dramatic existence in your heart

## Muscle of Freedom

If you want to kill my dreams  
You, you, you have to kill me  
I don't adopt identity  
I'll form my own with imagination

Pumping blood from shifting veins  
Pumping blood into erotic space  
Together, with you, with me

Putting claws in dirty meat  
Rough, tender, back in nature

I desire you, and you desire me

Saying goodbye to being human  
Saying goodbye to being terribly human  
To be creatures  
To be creatures

We'll be part of wilderness  
Dreaming of better kisses  
Death and life fight to be close  
I will tangle with both of you

Choose the right friend to fantasise  
What to do with all the future times  
Together, with you, with me

Visions build new realities  
You can't say no to passion

I desire you, and you desire

Muscles of freedom are being trained, are being trained

Muscles of freedom are being trained, being trained

Muscles of freedom are being trained, are being trained

Muscles of freedom are being trained

## Fuga Futura

I want to feel you,  
Who we are, here, in now,  
Young in old times

Appetite of beating hearts and passing lives  
And blinking eyes

Oh nature, seduce, breathe out,  
I'll breath in  
Breathe with me,  
Euphoria, euphoria

Climbing mountain peaks so high,  
That if we'd fall  
It will take us more than a lifetime  
To hit ground

It awakens, hyper love,  
Intimate, with meaning  
Bodies go where minds can go,  
To euphoria

Fuga Futura  
Fuga Futura  
Falling through love

Between the yesterday  
And tomorrow  
Be ambitious lovers  
In our natural habitat  
We'll do so many things

Wondering around vibrating landscapes,  
Goodbye sad eyes  
Night and day approach,  
Extract all dreams to give dancing bodies  
New shapes expand,  
They are grown from our broken hearts  
And opened chests,  
I sense euphoria

Fuga Futura  
Fuga Futura  
Fall in love with everything  
Between the yesterday and tomorrow  
Be ambitious lovers  
In our natural habitat  
We'll feel so many things
